

TRUPTI CHOUGULE

Sangli, India | 7666857797 | truptichougule99@gmail.com | <https://github.com/codewithTruptiii>

Motivated Computer Science graduate with a Master's degree and hands-on experience in backend API development. Skilled in building scalable RESTful APIs using Node.js, Express, and MongoDB. Strong front-end expertise in HTML, CSS, JavaScript, Bootstrap, and Angular. Passionate about creating efficient, user-friendly web applications with clean code and responsive design. Eager to contribute to innovative software development teams.

Technical Skills :

- Frontend : HTML, CSS, Bootstrap, JavaScript, Angular
- Backend : Node.js, Express
- Database : MongoDB
- Version Control : GitHub
- Others: RESTful API Development

Full Stack Web Developer Intern | Code Chakra Tech, Sangli

- Worked on a full-stack CRM application using Angular, Node.js, and MongoDB
- Implemented CRUD operations for managing customer data
- Developed RESTful APIs and integrated them with front-end components
- Collaborated with the team to enhance UI/UX and optimize application performance
- Gained hands-on experience in the MEAN-like stack and real-world development workflows

PROJECTS

GoTravel – Online Travel Booking Website

- Developed a responsive GoTravel website for a travel agency to enable users to browse and book travel packages online
- Designed interactive UI for destinations, booking forms, and contact pages
- Implemented features such as package listings, user booking form, and confirmation messages
- Focused on user experience, mobile responsiveness, and clean navigation
- Enhanced website accessibility and optimized loading performance

FOOD -Travel Agency Website

- Built a full-stack restaurant booking application that allows users to search restaurants, view available time slots, and make table reservations online
- Developed user interfaces with Angular for a seamless and responsive user experience
- Created backend apis using Node.js and Express to handle bookings, restaurant data, and user interactions
- Integrated mongodb to manage restaurant listings, user reservations, and availability data
- Implemented crud operations, real-time form validations, and user-friendly booking flows

Hotel Booking System

- Developed a responsive Hotel Booking website that allows users to search, view, and book hotel rooms online

- Designed intuitive UI with sections for hotel listings, room details, booking forms, and customer contact
- Implemented interactive features like date selection, booking confirmation, and responsive navigation
- Focused on user experience, mobile compatibility, and clean visual layout
- Deployed using GitHub Pages or integrated with backend services

Professional Certifications Course

- Successfully Completed Internship
- Web Design Certification
- MEAN Stack Development Certification

Education

Master of Science (M.Sc.) in Computer Science -**78.13%** (March 2023)
